## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

*Double Patenting*

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321 (c) maybe used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-48 rejected under the judicially created doctrine of obviousness-type double patenting as being; unpatentable over claims 1-22 of U.S. Patent No. 6,667,750 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because Applicant in independent claims in the present application discloses that "subtracting the second size preference from the first size preference, resulting in a resultant size preference dependent on the size preferences of the graphical objects". And also Applicant on page 3, lines 14-16 discloses that "various operation can be applied to the graphical objects, such as the add, max, and divide operations described in U.S. patent application serial no. 09/364,470 ...." (i.e. The 6,667,750 B 1). A person skilled in the art will comprehend that there is no subtraction operation in referred application serial no. 09/364,470. Contrary, Applicant in the U.S. Patent No. 6,667,750 B1 in col. 6, line 25 disclosed that other operators, such as "subtract," could also be envisioned. Therefore, the following underlined from claim 1 of the U.S. Patent No. 6,667,750 B1 could be considered as a subtract operation. Portion of the claim 1 consists of "computing size values of the graphical objects along the second dimension from the preferred sizes and elasticities of the graphical objects along the second dimension". Claims 3, 15, 27 and 39 are rejected as being obvious to a person skilled in the art to comprehend the size of the resultant size has a min. value of zero.
